THE EVENING ADVOCATE ST JOHN'S NEWFOUNDLAND SATURDAY, FEBRUARY 28, 1920.

TORONTO, (Good) - Fresh to strong westerly winds, fair and cold.

PRICE: ONE CENT.

FRANCE FACES REVOLUTIONARY MOVEMENT!

UNITED STATES REFUSES SOVIET RUSSIA'S OFFER!

ITALY WILLING TO NEGOTIATE AGAIN!

MEET EXCHANGE SITUATION BY TRADE IN EMPIRE

Within the Empire
OTTAWA, Feb. 27.—In the Senate today Senator Prudden opened the debate on the Speech from the Throne. He took up the question of exchange and advised home purchases by Mark Skelton, the High Commissioner until the United States accepted stoner of Australia, at a luncheon of the Bond Club here today.

Wants United States Plundered Steamer

LONDON, Feb. 27.—The reply made by Francis Lloyd George and Mr. Lloyd George's latest statement on the Adriatic question, repeats the assurance that they never had any intention of making a plundered steamer during the winter and ending settlement without obtaining goods and effects of considerable value have disappeared from the ill-fated vessel. When the depredation was discovered Federal police were put on the case, and after an exciting chase they arrested a farmer whose home is at St. Firm, and discovered a quantity of stolen goods.

Railway Men Say That Government Can Settle

PARIS, Feb. 27.—The executive committee of railway men, after a long meeting, issued a statement throwing responsibility for the continuation and extension of the strike on the Government. They declare that today will be the decisive day and will determine the attitude of the Federation, and assert that the Government which has all the necessary powers can yet settle the dispute peacefully in the best interests of the country.

Kolchak's Execution

LONDON, Feb. 27.—The execution of Admiral Kolchak, head of the All-Russian Government, is related in a War Office despatch yesterday as follows: "Irkutsk had been reoccupied by Siberian troops, formerly under Kappel, but now commanded by Volschovski. This force after cutting through partisan department appeared at Chersovo, northwest of the city. Volschovski proposed terms to the revolutionary military Soviet in exchange for which his troops would not enter Irkutsk. These terms included unmolested passage of his army eastward, cessation of hostilities, payment of a large sum of money, provisioning of his troops, and surrender of Kolchak. This occurred February 25th. The Soviet refused these terms, executed the admiral, and began evacuation on February 26th. Volschovski's men are reported to have entered the city."

Caillaux Trial

PARIS, Feb. 27.—The cross-examination of Joseph Caillaux by Prosecutor Lescove, took up the whole of the session of the Senate sitting as a High Court of Justice yesterday. The hearing did not bring out any new features or facts concerning Caillaux's activities during the war, but mainly dealt with the Treaty of Algeiras which Leon Bourgeois, who is President of the High Court, declared was necessary in order to throw light on Caillaux's activities during the war.

Helping The Farmers

LONDON, Feb. 27.—The Minister of Agriculture announces that the Government has decided to guarantee the wheat growers of the United Kingdom one hundred shillings per quarter for their produce next year. The Minister says the Government is gravely concerned over the decline in wheat production of the United Kingdom which is attributable to State control and consequent absence of free market the result being that almost any other crop gives the farmer better return.

The Prussian Railways

LONDON, Feb. 27.—A wireless despatch from Berlin states that the German state will take over the Prussian railways for thirty-four billion marks, of which twenty-four billion will be used to pay all converted and unconverted debts of the Prussian State. From the balance of ten billion marks the Prussian State will receive annually four hundred million.

Aviators Are Safe

PARIS, Feb. 27.—Major Vuillemin, pilot, and Lieut. Charleus, observer, who were lost for more than a week in their flight across the Sahara Desert, are reported by the French aviation department today to have landed safely at Mentaka Village, east of Timbuctoo, on the Niger River.

Refuses Soviet's Offer

WASHINGTON, Feb. 27th.—Soviet Russia's proposal to the United States for peace will receive no consideration from the American Government, it was said today at the State Department.

BOOMED FOR THE PRESIDENCY

His better Hoover's candidacy for President was brought to Washington and started the political leaders of both parties. It aroused intense curiosity as to its backing and purpose, as well as focussing attention on the question of whether Mr. Hoover is a Republican or a Democrat, or if the movement back of him represents the boom of a new party which is aiming to make Mr. Hoover its head. Mr. Hoover's history has come up for consideration, and attention is called to the fact that he comes originally from California; that he chose to dwell for a long time in Europe; that he is generally regarded as a cosmopolitan rather than as a nationalist; and that discussion of him as a Presidential possibility without knowledge of his political affiliations is somewhat incongruous. His work in Belgium is accepted as showing remarkable efficiency and as his introduction to American affairs, from which he had long been separated.

ITALY WILLING TO BE MODERATE RE ADRIATIC

PARIS, Feb. 27.—Premiers Lloyd George and Millerand were able to quickly reply to President Wilson's note relative to the Adriatic through the action of Premier Nitti, who, anxious to give proof of his moderation, consented to enter into fresh negotiations with M. Tramitch, the Jugo-Slav Foreign Minister, says Pertinax, political editor of The Echo de Paris. The British and French Premiers, therefore, hastened to make known this new Italian concession to Mr. Wilson, begging him to use his good offices to facilitate an agreement. The Supreme Allied Council also considered yesterday morning the answer to the observations made by the Hungarian peace delegation to the treaty submitted to that country by the Entente. Pertinax concludes. The Council, he understands, maintains the treaty terms in their essentials particularly the clauses relating to territory.

Lord Leverhulme Visits Canada

Lord Leverhulme—famous as the head of the great Lever Bros. Soap Manufacturers, and noted for his work in bettering the lot of the worker in industry—is at present interesting himself in the fisheries of Great Britain. He has purchased fleets of trawlers and fishery establishments in Great Britain and organized a huge retail distribution system for the purpose of giving the British public supplies of fish at low prices. His fishery enterprise by this time is the greatest organization of its kind in the world. His Lordship, accompanied by his advisor in fishery matters, Captain J. P. Crighton, is at present touring the United States and Canada examining the methods of catching and handling fish as practised on this side of the Atlantic. In Vancouver recently, it is reported, Lord Leverhulme made arrangements with the B. C. cannery interests to supply fresh frozen and canned fish to his company. Capt. Crighton, who accompanies him, is well known to the Canadian fish trade on the West Coast and has a good knowledge of the fishery resources of B. C. waters gained during the time he was in command of an expedition engaged in fishery investigations for the Canadian Government.

With a huge distributing organization at his command, Lord Leverhulme is in a position to undertake an enormous business in fish products. For sources of supply in fish species and products not available in European waters, the Canadian industry should prove of interest to him, and we will welcome him as a customer.

U. S. Railroad Bill

WASHINGTON, D.C., Feb. 27.—The Compromise Railroad Bill was returned to the White House today by the Department of Justice, to which it was referred Wednesday for an opinion as to its validity. The President was expected to act on it today or tomorrow. Attorney General Palmer informed the President that he saw no conditional objection to the measures.

PRUNE GOODIES

Soak prunes over night in cold water, boil until tender, not allowing them to break, and take out the pits. Grate a square of chocolate, mix with the beaten white of two eggs and three tablespoons of powdered sugar. Dip prunes one by one in the mixture and put them, without allowing them to touch, on a butter tin. Bake ten or fifteen minutes and serve hot.

FRANCE FACES A CIVIL WAR OVER RAILROADS

PARIS, Feb. 27.—Railroad men at the cant station in this city ceased work at seven o'clock this morning, and the strike situation also became worse at the northern station. The railroad service to suburban points was still further diminished with the exception of the line on the right bank of the Seine to Versailles. Railroad workers at Nice have struck, according to reports. The decision was reached by the French Cabinet this morning that the Minister of Public Works would ask the Chamber of Deputies this afternoon to discuss a bill authorizing the requisition of them to remain at their posts and not automobiles if railroad traffic is interrupted by the strike. Governmental intervention in disciplinary measures taken by the Paris, Lyons and Mediterranean railways company towards employees, is opposed by Premier Millerand, who arrived here yesterday and at once plunged into consideration of the strike situation. Delegations of the Railway Workers' Unions conferred with the Premier yesterday afternoon relative to some action which would bring about a consideration of the dismissal of a workman named Campanaud, which caused the big walk-out, but the best Millerand could do was to advise the men to submit their case to arbitration. In the meantime the railroad company has dismissed 250 strike leaders in addition to Campanaud. The executive committee of the National Union of Railway Men last evening issued an appeal to railroaders, asking them to remain at their posts and not to follow the strike movement which is clearly a revolutionary character. In order to secure the revivification of the city. "It is incredible," says the appeal in conclusion, "that after a five years' struggle against the enemy, the railroad men would be and at once plunged into consideration of the strike situation."

The St. Lawrence Project

TORONTO, Feb. 27.—Toronto and other cities in Ontario will send representatives to Buffalo next Monday to urge upon the International Joint Commission the deepening of the St. Lawrence River Channels. The Great Lakes St. Lawrence Tidewater Association is strongly supporting the scheme of the St. Lawrence seaboard system and is co-operating with Canadian Deep Waterways and Power Association in connection with claims to be laid before the International Joint Commission at Buffalo.

Imperator's Delay

LONDON, Feb. 27.—The delay in the sailing of the former German liner Imperator, under the British flag came up in the House of Commons yesterday. Answering a parliamentary question whether the delay with respect to British steamships such as the Imperator and consequent loss to British companies had been caused at New York or other American ports, Andrew Bonar Law in a written reply said that considerable loss had been caused the British Government by the retention of the steamers in question after the completion of the American services in which they were engaged. Representatives had been made to the United States Government by the Ministry of Shipping and the question as to whether a claim should be submitted was being considered.

Denmark Joins

COPENHAGEN, Feb. 27.—The Parliamentary Commission named recently to discuss the Government's proposal that Denmark join the League of Nations has reported in favor of such action.

Printers Get Raise

SCRANTON, Feb. 27.—Announcement was made by three newspapers published in this city yesterday of voluntary increase in wages to all employees of composing and news rooms of \$5.00 per week. In future printers will receive \$45.00 a week with corresponding increase for executives.

England's Crisis

LONDON, Feb. 27.—The Parliamentary Committee of the Labor Party adopted a resolution yesterday that a Trades' Union Congress was to be held on March 11 to take action to compel the Government to nationalize the mines. This may take the form of a general strike.

Revolution In France

PARIS, Feb. 27.—The railroad strike from which France is now suffering was characterized as a revolutionary development by Premier Millerand in the House this afternoon. The Premier, speaking on the bill introduced by Trocquier, Minister of Public Works, authorizing requisition of automobiles, trucks and airplanes in case of interruption of railroad traffic by the strike, said: "We are fearing a political movement or, calling it by its name, revolutionary movement under a puerile pretext."

Dempsey a Slacker

SAN FRANCISCO, Feb. 27.—Jack Dempsey, heavyweight champion of the world, and his manager, Jack Kearns, have been indicted by the Federal Grand Jury on a charge of conspiring to have Dempsey avoid the Selective Draft, according to a responsible Federal official here today.

Just Received

Comments and Critiques

By a Casual Correspondent

THE RICH AND THE POOR.

It seems to me that if the rich of our city lived in one of the congested lanes or byways on the north side of New Gower Street, next door to poverty, they would catch the neighborly spirit. The rich man, shut up in his own little circle, and so cut off from the larger human life, is himself the greatest sufferer. One is often asked the question, "What can the rich man do for the relief of suffering?" I believe that there is but one answer: Let him give not alms, but himself, and the wisdom comes with the giving.

THE SALVATION ARMY.

Of course, it is needless for me to say here that the Salvation Army is one of the most remarkable religious organizations of modern times. It is a younger brother to the Anglo-Catholic movement of the first part of the past century. The latter was born in the colleges of Oxford, the former as the Salvation Army in so short a time. If we can judge the Army by its fruits, it has vindicated its rightful place and its great importance in the religious development of the age in which we live, and it commands the respect and goodwill of Christian people everywhere.

THE FACTORY SYSTEM AND WHAT IT MEANS.

It has been truly said that the factory system destroys the beauty of the country, and makes it dirty, smoky and disagreeable. The proprietors of those factories, to make wealth for themselves, destroy the beauty and the health of our dwelling-places, and then they sit in their suburban villages,

or on the hills and terraces of lovelier in the slums of East London. The one is intellectual, aesthetic, and persuasive, appealing to the more refined and cultured sections of society; the other is rugged, noisy and aggressive, laying hold of the common people, and especially of the rude and uncultivated classes. They are both alike, essentially ethical and mystic. They have a common father in that practical English commonsense which easily adapts itself to its environment; and a common mother in that spirit of chivalric devotion to Christ which is ever more or less mediaeval in its tendencies.

THE SOCIAL SCHEME AND MARVELLOUS SUCCESS.

The writer of these comments does not pretend to be competent to give an opinion upon the financial side of the Army's Social Scheme, or to estimate the scheme in all its relations to the great social problems of our times; but there can be no doubt that both from an ethical and a religious point of view, the scheme has been a surprising success, even in this small community of ours. No religious organization in history has enjoyed such a marvellous growth in southern countries, and sneer at the "sentimentality" of the men who ask you to cherish beauty and to prize health. But the fact remains that where the manufactures are the greatest the death-rate is the highest. Newfoundland can feed her people as she has fed them in times gone by, with never a factory flue to vomit foulness into the air, and never a

greedy money-grasper to poison her streams with filth, or wither her woods and glades with soot and sulphur. To provide for our own needs we must make soap, butterine, tobacco, cordage, &c. True. But we need not make them by steam power. We could make them by water power, and so abolish the smoke nuisance.

"THE SOCIAL CONFLICT"

Last night I finished reading M. Clemenceau's book entitled "The Social Conflict." The volume may be described as the very antithesis of Mr. Arthur Balfour's "Foundations of Belief." Not that it deals with religious questions, but that the whole outlook and philosophy of life is founded on the conviction that man terminates his ego absolutely with his terrestrial life, and that the future involves the annihilation of the human race as well as the glacial extinction of the planetary system. Yet such is the inveteracy of moral purpose that from the terrible aspect of life he presents there evolves the intense desire to mitigate human misery by human means. If nature is cruel and pitiless, man has to play the part of the redeemer and beneficent reformer.

COMMUNICATION WITH MARS AND THE MOON.

Just now while scientists and others are speculating as to whether those recent wireless signals came from Mars or the Moon, I am reminded of M. Camille Flammarion's interesting paper on "International Communication," published in the "New Review" (a copy of which I found among some old papers the other day) twenty five years ago. He gives us the reasons which led him to believe that "we shall, before very long, be able to hold communication with the inhabitants of the Moon and Mars." The idea in itself, he says, is not at all absurd, and it is, perhaps, less bold than those of the telephone, or the phonograph, or the photophone.

It was first suggested with respect to the Moon. A triangle traced in luminous lines on the lunar surface, each side from twelve to fifteen kilometres long, would be visible from here by the aid of our telescopes. It is more likely, however, that communication will be opened up with the people of Mars. Mars is only four million leagues away. It is older than the earth, smaller, lighter in weight, more quickly cooled—it is farther advanced than we in astral life, and everything leads us to believe that its intelligent races, whatever they are, are far superior to us. He even suggests that its inhabitants have already attempted to enter into communication with us. With the aid of a powerful telescope we can see anything on Mars that is not smaller than Sicily or Iceland. There are certain geometrical triangulations on its surface, and men have sometimes observed luminous points which appear placed very regularly. It is possible that these points represent mountains covered with snow. However, if our neighbors wanted to address us, they could do better than to trace lines of this kind. The supposition is a bold one, I confess; doubtless, these cousins of the sky concern themselves no more about us than we concern ourselves about them; but, in a word, if they should do so, they could go about it in this way.

M. Flammarion was an astronomer who did not flinch from putting questions from which most scientific men of his time recoiled in horror. For instance, he said in the paper to which I refer: "May there not exist between the planetary humanities psychic lives that we do not know of yet? We stand but at the vestibule of knowledge of the Universe."

WOMAN'S SUFFRAGE BILL TO BE INTRODUCED.

It is stated that a prominent member of the Upper Chamber will, during the coming session of the Legislature, introduce a Bill to extend the electoral franchise to all women of twenty-one years of age and upwards. The "honorable gentleman," I understand, bases his plea for Woman's Suffrage chiefly upon the bearing of the franchise upon the industrial position of women. The recognition of woman as a worker, and the recognition of woman as a voter in this community are part of one and the same movement. The question of the vote concerned the woman worker more than any other. It concerns her directly and indirectly, by immediate and reflex action. The mere acquisition of a vote is in itself a small thing, especially to those whose minds have been already quickened by all the impulses and sympathies of political thought; but the character of the sex as a whole, and the status of the woman-worker in particular, must be improved by the removal of the barriers that have environed and cramped her activities. I have

spoken to several members of the Lower House about the contemplated measure and find that they are strongly in favor of it. The same, I understand, may be said of the Social Service Committee here. They, also, favor Woman's Suffrage. By the way, the Ladies' Branch of the N.I.W.A. ought to and, no doubt, will wheel into line at once and support with its powerful influence the laudable efforts of those already identified with the movement. What, I should like to know, has Mrs. Julia Salter Earle, the high priestess of Women's Rights here, to say in this connection? If espoused to the cause, her eloquent tongue and facile pen should enable her to do more, perhaps, than any other individual member of the community to force on the desired legislation and place her charming sex on an equal footing with the "lords of creation" in the making and enforcement of laws for the better government of our common country!

W. C. T. U.

The 26th inst. being the 4th Thursday of the month. The Women's Christian Temperance Union met in the Ladies' Parlor of the Gower St. Church. The President, Mrs. Hunter officiated. The opening devotional prayer was under the superintendence of Mrs. T. Martin. A record of the former meeting was submitted for approval, and business was thereafter discussed. A letter of invitation to send a delegate to the World Convention of the W.C.T.U. was read, but whether or not Newfoundland would be represented, could not be determined. A letter received from Mrs. Howland was read by Mrs. Benedict, and all were pleased to know that the friends she made while here had not been forgotten amid the distractions inseparable from her busy life. Mrs. Howland wrote from Scotland, where she had been conducting a campaign, and was about to proceed to England for the same purpose, namely, to uplift the white banner that will save the Nations from one great evil. On the past Sunday afternoon, Divine Service was held in the Penitentiary, under the auspices of the Union. A solo and chorus as well as the address, were delivered and all were bright and hearty, and appeared to meet with the appreciation of the listeners. On the 11th of March, the W.C.T.U. will meet again in the usual place.

turned hero, Pte. George White, who arrived home on December 25th, after serving with the Canadian Regiment for some years. The Ladies held a tea in January and had a table prepared for Pte. White and his friends. The Ladies also served a syrup table. After tea was over cakes were auctioned. The tea was all that could be desired. We thank the friends that helped in any way to make it a success. We wish our returned hero every success in life.

Mr. Samson Gillingham and Mrs. Daisy Kinden were united in the bonds of Matrimony, the ceremony being performed by the Rev. Mr. Hillier. The bride looked charming in a dress of cream trimmed with blue silk, also hat to match. The bridesmaids were Mrs. Wm. Gillingham, Mrs. Thomas Gillingham and Miss Ida Moore. The groomsmen were Mr. Wm. Goodyear, Thomas Gillingham and William Pennell. After the ceremony the bridal party went to the home of the groom, where a sumptuous supper was enjoyed by forty guests. The writer joins in wishing Mr. and Mrs. Gillingham many years of wedded life.

I wish them health, I wish them wealth,
I wish them gold in store,
I wish them Heaven after death
What can I wish them more?

I remain,
Yours sincerely,
19, 22, 13, 9, 18, 22, 7, 26,
11, 22, 13, 13, 22, 15, 15.

ST. JOHN'S, NEWFOUNDLAND, SATURDAY, FEBRUARY 28, 1920

ABOUT MARKETING OUR FISH

The "Daily News" has been furnished with some more information as to alleged discrimination in disposing of some fish cargoes in the Mediterranean. Inasmuch as the "Herald" last week gave similar information about two cargoes which turned out to be absolutely false, there is every possibility that the yarns of the "Daily News" will be just as false. There are two sides to every question, and doubtless Mr. Coaker will be able to explain satisfactorily any transaction in relation to the Fish Regulations when he returns.

The desire to damn the Regulations is so uppermost in the minds of a few individuals that they are continually keeping up warfare against them. It will probably be found that those people have little or no fish to dispose of, and that they are politically disgruntled.

The menace of the Norwegian catch is shown up to those who are ignorant as something to be feared.

It looks a wonderful thing to see that the Norwegian Fishery is two million this year when it was only one million last year.

As a matter of fact, the tables which have appeared within the last few days in the papers, prove that the Norway Fishery has not reached one quarter of its pre-war average.

The problem of marketing the balance of our fish is not a formidable one, nor are the quantities as large as those held in other years. The statement has been made in the press as well as at one of the Board of Trade meetings that all fish should be shipped by December. Of course the statement is ridiculous, for if all our fish were dumped into the markets in three or four months, these markets are certainly not going to pay a big price. Besides, there are few coal storage facilities on the other side that could take care of the fish that these markets would want kept until June and July of the following year. Also, the St. John's laborers in the merchants' fish stores, would not welcome a suggestion that after December their services would not be required.

The sane procedure is that followed out by the Fish Regulations. Let us control our shipments of fish to these markets, see that the markets are not glutted, and instead of lying down and accepting a loss on fish shipped after January, make our fish bring a good price whenever it is shipped.

WEATHER AND ICE REPORT

Greenspond—Wind west by south, gale; no ice in sight.
Wesleyville—Wind west, strong breeze, fine and clear; no ice in sight.
Catalina—Strong W. N. W. wind, fair and cold; bay clear of ice.
Heath Point—Light snow, strong N. W. wind; heavy close-packed ice everywhere.
Grindstone—Clear, northwest wind, West Point and North Grindstone—Close-packed ice everywhere.
Pleasant Bay—Clear.
Money Point—Cloudy, N. W. wind, close-packed ice inshore.
Cape Ray—Light snow, gale west wind; heavy close-packed ice everywhere.
Flat Point—Clear strong northwest wind; no ice.
Seati—Clear, northwest wind; no ice.
St. Paul's Island—No cable connection all winter, no wireless on said island.
Port aux Basques—Wind west, strong, snowing; ice close on land.
Flower's Cove—Wind north-west, very stormy; Straits still blocked with ice.
Griquet—West wind, weather fair but cold; ice about 5 miles off shore; seals none.
St. Anthony—Westerly winds, little colder; ice off shore.
Lasele—Strong west wind, fair and cold.
Seal Cove—Wind south-west with snow flurries; bay still clear of ice; no seals.
Tilt Cove—Decreasing west wind, fine, cold; bay clear.
Nipper's Harbor—Strong west wind, bay clear.
Twillingate—Westerly gale, fine.
Fogo—Strong W. S. W. wind, fair and cold; no ice in sight.

The Inter-Church Forward Movement And The Financial Campaign

The Inter-Church Financial Campaign, in the Dominion, began on Feb. 9 and closed on the 14th. We have already furnished returns showing that the Methodist Church had exceeded its original object of \$4,000,000 by \$270,000 with several districts and the Newfoundland Conference still to report. It is confidently expected that the \$5,000,000 line will also be passed. In this remarkable result on the part of the churches there are many interesting incidents that are worth repeating, and the Toronto Globe, which devoted every generous space to campaign reports each day, furnishes the material. "The call of the Protestant Churches in Canada for a spiritual revival, and its material expression in the raising of \$12,000,000 expansion fund is meeting with a special response." "Leaders of the movement in the different churches express themselves as elated over the result." Rev. Peter Bryce of the Methodist National Campaign however, qualifies his enthusiasm by expressing the hope that the response will be a wide and popular one rather than that the objective of his denomination might be attained by a few large subscriptions. "If an individual Methodist layman were to come forward and offer to contribute the entire \$5,000,000, I would greatly deplore it. This is not merely a movement to raise money; it is a movement to enlist men and women in the greatest task the world knows."

Mr. G. H. Wood, chairman of the Executive of the United National Campaign, said: "In this united campaign there is probably a much larger force of canvassers at work than took part in the recent victory loan campaign. A careful estimate places the number of canvassers in the five communions that are this week engaged in this great enterprise of the Churches at over 50,000, while the number of communicant members to be appealed to exceeds 1,000,000, and the number of adherents probably represents another 2,500,000."

"My heart is stirred with gratitude to God, and to every worker; the Forward Movement and the Financial Campaign alike are proving a great success," said the Rev. Dr. Chown, General Superintendent, in a message from his sick bed to the Church chairman of Toronto Methodist, gathered for a campaign review at the Central Y.M.C.A.

"Although still badly handicapped by having fully half their canvassing staff absent through illness, the enthusiasm of Sherbourne Street Methodist Church has not lessened any. For twelve hours yesterday the different organizations of the Church kept up a continuous chain of prayer. Dr. Williams presided over two meetings, and the others were conducted by their own officers."

"All can contribute to this campaign; I have in mind four old men in Macleod, Alberta, who were too old to canvass, and too poor to give money, but who pray every morning together for the whole Inter-Church Movement," said the Rev. J. H. Arund, General Secretary of the Methodist National Campaign.

"The first cash given at Timothy Eaton Memorial Church was a dollar bill from a coloured servant girl. Two men offered a \$100 each for halves, but they are holding it for auction."

A well-known Toronto gentleman of moderate wealth, made up his mind to give \$2,500. Within a fortnight, with fuller information, he made it \$10,000. Another man in the same Church started at \$1,000, and after further consideration made it \$5,000.

Here is a story from Saskatchewan by Lieut.-Col. Keenleyside, writer of several missionary books: "Five dollars comprising the whole savings of a five-year-old boy makes the largest special subscription, based on sacrifice which we have received so far." According to the telegram the boy said: "Here is \$5.00 for the Forward Movement. If you need any more I will go out and earn it."

Earlscourt Methodist Church, Toronto, of which Rev. Peter Bryce is Superintendent, with only 20 per cent. of its people canvassed, raised \$2,030 on an objective of \$2,000. The feature contribution is of coins taken by a four-year-old child from his bank, amounting over \$5.00. The Epworth League members gave \$450. Two boys' classes counted on for \$25 gave \$100 each. All this follows a revival which swept hundreds into the Church earlier in the winter.

Reports from the Anglican Churches far exceed the most sanguine expectations, and show that their objective of two and a half mil-

YOU KNOW HOW IT IS.

There's Chance For Every Man

AVOID SHORT CUTS, DO THE RIGHT THING AND YOU WILL SUCCEED.

So Says A. C. Bedford, President of the Standard Oil Company of New Jersey.

"You think, Mr. Bedford, that almost every fellow has a chance?" I asked. "No, not a chance, not one chance, but many chances," he replied spiritedly. "Every fellow has chances coming his way constantly; it is not a question of having chances but of recognizing chances when they come. You sometimes hear a fellow say: I had a chance once but didn't take it. Never mind the chance that is past; watch out for the next one and qualify to be able to seize it."

"You believe the young man of normal intelligence and abnormal diligence can usually make at least a moderate success of his life?" I queried.

"Yes, I have no patience with high-fliers, with brilliant young gentlemen who go up like skyrockets, for they usually come down like sticks," he declared with emphasis. "Do the natural thing; do just what is reasonable whether you are dealing with an employer or a customer or a competitor or with labor. Avoid short cuts."

"Success that is worth while is, after all, very largely a matter of plain, every day morality combined with tremendous industry and a deserved reputation for integrity and for fairness toward the other fellow."

lions will be over-subscribed. In the Toronto Diocese more than \$100,000 were subscribed on the first day. Equally satisfying results have been received from points throughout Ontario and the Dominion.

The Diocese of Moosonee, a missionary district among the Indians and Esquimaux of northern Ontario and Quebec, with only two self-supporting Churches, set out with an objective of \$25,000 and has already gone over the top. It hopes to double the objective.

A Kingston Doctor offered himself and his services for a missionary hospital or medical work.

Did space permit the same fine things could be repeated with respect to the Presbyterian, the Baptist and the Congregational Churches. Suffice it to say that not only will the Methodist, and Anglican Churches exceed the original financial objectives but all the uniting Churches will have a similar experience—and the credit of this remarkable "Thanksgiving" by the Protestant Churches of Canada, for the expansion of the Kingdom of God and the reconstruction of the world must be given to Mr. G. H. Wood rightly says, "to the thousands of givers, who, in all walks of life, in large amounts and small are cheerfully responding to the call, and giving according to their ability."

—M. F.

Paying Toll for Neglect

Needless exposure to damp and cold frequently result in a derangement of the Kidneys and Bladder.

When these important organs fail to do their duty, various evils arise, such as rheumatism, swollen hands and ankles, stiff joints, lumbago, sciatic neuralgia, stone in the bladder or gravel, excruciating pains in the back and sides, constant headache, dizziness, specks floating before the eyes, uneasiness of mind without reason and general debility.

These are signs of serious kidney and bladder trouble, which require immediate attention. The most dependable remedy is found in GIN PILLS. They often prevent the operations which constant neglect may render necessary. They quickly and safely relieve congested kidneys, passing stone and gravel, restoring them to normal. Thousands of letters from people who have been relieved are continually coming to us. Their writers often beg us to spread the good news to other sufferers that GIN PILLS certainly and surely will bring relief to their need. Send for free sample, or go direct to your druggist or dealer 50c a box. Money refunded if relief not given.

The National Drug & Chemical Co. of Canada, Limited, Toronto, (Incorporated in Canada) Address, No. 100-101, 102 Main St., Buffalo, N.Y.

The Battle of The Ballots

Mr. Hickman and His Petition

This morning in the Supreme Court the hearing of the petition of A. E. Hickman, one of the defeated candidates at the Fall election in Bay de Verde District, was begun before the Chief Justice, Sir William Hogg and Mr. Justice Johnson. The hearing was opened by Mr. McNelly, who appears for Hickman, putting in a list of persons who vote and to whose vote Hickman objects on the ground presumably that those votes were given to W. H. Cave. Hickman's list totals 47. Of this number he claims 21 were non-resident and as to the remainder they had not lived sufficiently long in the District or otherwise were disqualified for other causes. In answer Mr. Cave comes back and contends that 26 of the 47 were certainly good ones, in fact all were good. Mr. Cave also filed a counter petition list in which he claims that 21 votes given (presumably for Hickman) a certain number were under age, and for other reasons, he asks that those be stricken out. The Deputy Colonial Secretary was in the witness box all the forenoon. There are a number of witnesses for both sides in total. Mr. McNelly at recess asked the court for an adjournment until Monday as he has been sick for several days and was not able to go on this afternoon. Mr. McNelly's illness they granted the adjournment until Monday morning at 10 o'clock.

left defence: Ralph Stick, right defence: Canning, left wing: Payne, centre: Alderdice, right wing:

Team B.—Power, goal: Robertson, left defence: Callahan, right defence: Power left wing: Tait, centre: L. Munn, right wing:

From these with Rob. Stick, Rendell, Ewing, Trapnell and J. Rawlins, the ten to compete with the visitors will be selected. The try-out was a fast one, but the brand of hockey handed out, in the opinion of some of the old players, will not do to put up against the AllStars, who are said to be just what their name indicates. The teams will practice again tonight and on Monday. The first game will likely be played on Tuesday night and tickets will be on sale Tuesday.

The s.s. Digby arrived at Halifax at 10.30 this morning.

From Exploits

(To the Editor)

Dear Sir—As it is such a long time ago that you heard anything from Exploits that I thought I would drop you a few lines to let you know we are all alive, although we have been shut off from the outside world for a long time, and we have had it so cold and stormy.

I would like to say something respecting that dread disease, smallpox, that has broken out amongst us if it was not for having such an energetic C. E. clergyman and merchant I don't know what people would do. What is the reason we cannot have a good doctor sent? I should think when there are so many houses afflicted

that the churches and schools should be closed, but I trust, through the energy of those I mentioned, it will soon be stamped out.

Trusting I have not taken up too much of your valuable paper, I beg to remain,

ONE WHO KNOWS.

Exploits.

(We would ask our correspondent to write a formal complaint to the P. M. G. about other matters mentioned in this letter.—Ed.)

Last Night's Practice

WHALEMEAT AS FOOD PRODUCT.

The principal whales taken are the finback and humpback. They measure from forty to eighty-five feet in length and average one ton in weight to every linear foot. They yield from three to ten tons of meat each. Testamers are used in hunting them. Bone meal used as fertilizer and oil used in the manufacture of soap are the principal products of the industry. A whale will produce from fifteen to seventy barrels of oil. Every part of the great mammals is utilized.

His Left Hand to Younger Pilgrims

London, Jan. 21.—H. R. H. the Prince of Wales was the guest last night to a large and enthusiastic dinner of the Pilgrims. More than three hundred persons were present. The Prince made a speech, partly serious, partly humorous. With some modesty he delivered personal touches here and there, and had a clamorous reception. The Prince re-affirmed his intention to visit America, particularly the middle-west and far-west, saying that the best proof that one had enjoyed a visit was his earnest desire to repeat it. He remarked:

"I am still receiving a large amount of mail from the United States—and not all of it from the fair sex," which provoked great merriment. Another spontaneous touch was greatly cheered. Referring to the chairman's remark that the Prince after his tour

was again domiciled as a citizen of England, His Royal Highness said:

"I hope I am domiciled as a citizen of the British Empire."

Wearing the broad blue ribbon of the Garter and his war medals, the Prince shook hands with all the guests as they arrived.

"My right hand is in pretty bad condition from hand-shaking. I hope the Pilgrims won't mind if I use my left," he remarked to the chairman, Lord Desbrough, extending his right hand which was red and swollen. It was noted, however, that to the older men, he gave his right hand, while to the rank and file he gave his left.

The Prince spoke lengthily, with assurance and ease. Besides Lord Desbrough, the speakers were the Earl of Reading, United States ambassador Davis, and the Lord High Chancellor.

LONDON, Feb. 21.—Earl of Reading has definitely declined Ambassadorship to Washington, and the post has been offered to Sir Auckland Geddes,

Expert Gunners of Bay-de-Verde

(To the Editor)
Dear Sir:—Please oblige by giving me little space in your highly esteemed paper to make a few words concerning our expert gunners of Bay-de-Verde:

Oh, Mollie, dear, and did you hear, The news that's in the town Concerning our brave sportsmen, The best that can be found? Who have combined together, To roam the ocean deep, And stand up true and loyal, Their harvest for to reap.

Those lads, my dearest Mollie, Belong to Bay-de-Verde, And are two expert gunners, As you've already heard. They're not conversing daily, Of what they're going to do; But their object is high liner, If both stand firm and true.

To you, my dearest Mollie, I'll surely tell their name: It's Isaac and young William, Who is cheerful in the game. They are two stalwart comrades, That keep on firm and bold, Out shooting birds in winter, In the midst of frost and cold.

Those men, my dearest Mollie, Do beat all friends by thirds, And do hold out high liner, In shooting water birds. They kill those turrs and puffins, Those ducks and bull-birds, too, And for those beauty tickle elts, I'm sure they aim quite true.

The season now, sweet Mollie, Is drawing very near, For the birds to fly from the southern. It's then they will prepare, It's then they will be cautious, To finish all complete, And have their guns in order, The southern patch to meet.

The season is approaching, Dear Mollie, as you know, And soon you'll see those experts, Out wandering to and fro, Soon will you hear the banging, And sound of metal roar, And soon will those young heroes Destroy some hundreds more.

No doubt, my dearest Mollie, Those men are not uncouth, But bright and very valiant, As they stand in their youth. They are both good and tranquil, And very righteous, too; And this accommodation I send across to you.

So now, my dearest sportsmen, Of Bay-de-Verde's old land, You keep your routine going, As it is complete and grand. You keep on with your practice, In roaming of the deep, And with the help of Providence, Good harvest you may reap.

So here's success to Isaac, And William, too, likewise, And thirty white wing divers, Each morning as you rise, I wish you both successful, Each morning as you roam, And may you bring a bumper, On your returning home.

So now, my dearest Mollie, I think I'll stop my pen, As the time is far advancing, The clock struck half-past ten. But please God a little later, When the journal tells some more, I'll send another verse, Across this rocky shore.

HOW YOU CAN TELL

GENUINE ASPIRIN

Only Tablets with "Bayer Cross" are Aspirin—No others!

If you don't see the "Bayer Cross" on the tablets, refuse them—they are not Aspirin at all. There is only one Aspirin, that marked with the "Bayer Cross"—all other tablets are only acid imitations. Look for the "Bayer Cross!" Then it is real Aspirin, for which there is no substitute.

Aspirin is not German but is made in America, and is owned by an American Company, all rights being purchased from the U. S. Government.

Genuine "Bayer Tablets of Aspirin" have been proved safe by millions for Pain, Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis.

Handy tin boxes of 12 tablets—also larger "Bayer" packages, can be had at any drug store.

Aspirin is the trade mark. (See Newfoundland registration No. 721), of Bayer Manufacture of Monoclonal-acid of Salicylic Acid.

Support and Develop Your Own Business

--- BY ---

Investing In Union Companies

The Trading Company has paid 10 per cent. Dividends annually for eight years.

Shares Ten Dollars Each

BUY

TRADING COMPANY BONDS

Eight per cent. Interest Guaranteed per Annum, payable in half yearly instalments. Principal repayable in gold in ten years.

Bonds in all Denominations from \$50.00 to \$1000.00

This Is Your Own Business

The opportunity to invest in these paying Companies is open to F. P.U. Members only. Make 1920 the Banner year for Investments, and help yourself by assisting the Union Companies to give you the efficient service you require.

Bowring's Sealing Fleet

Messrs. Bowring Bros., Ltd., are the owners of half the local sealing fleet which will prosecute the voyage this Spring. Leaving out the Sable I. and Messrs. Campbell and McKay's new purchase, only eight steamers will be prosecuting. These are: Neptune, Diana, Seal and the Bowring fleet, Terra Nova, Capt. A. Kean; Eagle, Capt. Edward Bishop; Ranger, Capt. S. R. Winsor; Viking, Capt. William Bartlett. The last four steamers will carry crews aggregating 720 men.

Missing Men Found

William Whelan and Michael Cashin, of Cape Broyle, who had strayed while in the woods, turned up alright yesterday, according to a message from Constable Whelan to Inspector General Hutchings last evening.

Firemen Called Out

At 9.30 last night a telephone message from Mr. F. W. Ayre's residence, Circular Road, called out the Central and Eastern Companies, a slight fire having occurred at Mr. Ayre's through some wire connection attached to an electric heater getting out of order. The Companies were quickly on the scene and extinguished the fire before very much damage was caused.

Hudson Super-Six

The first SUPER-SIX was announced five years ago. By the use of an exclusive engineering principle, the power of the motor was increased 72% without any increase in weight or the sacrifice of simplicity. To-day the SUPER-SIX represents the perfected result of years of experience. It is the logical successor of the SUPER-SIXES which captured more worth while records than have ever been held by any other stock car. The qualities upon which its leadership was founded have been retained and enhanced in many ways until it stands, unchallenged, as the World's most popular fine car.

BUSINESS CHANCES

MILLIONS are suffering with Rheumatism. Most important discovery of the age. A herb that actually drives the most stubborn case of Rheumatism entirely out of the system. People write us and say, they are astounded at the results, especially on the kidneys. Just think the money making possibilities. Representatives wanted. \$112 pound postpaid, 10 pounds \$5 express paid. Rheumatism Herb Co., Venice, California.

Ship Badly Battered

The schooner Frank H. Adams, to whose arrival from Barbados we briefly referred yesterday, had a severely trying stormy round trip since leaving here on September 16th last. She proceeded to Argentina from here and loaded codfish for Lisbon, (later going to Oporto) and her able and efficient skipper, Captain Picco, says he seldom has met such a continuation of stormy weather, with gales of wind, rain, fog and high seas, so that he had his work cut out to navigate the ship safely through it all. She made the run over in 28 days, lost her mainsail and had some other slight damage, and then loading salt for St. John's had a very severe storm in mid-Atlantic, the wind blowing with hurricane force from the E. S. E. with a mountainous sea running. Some of the canvas was torn from the bolt ropes, other sails badly ripped and the ship had to run before it, making Barbados where repairs were effected. Owing to the delay caused by the storms, the ship became short of grub, particularly of flour, meat and vegetables, and the men had to be rationed. Capt. Picco says the "Adams" proved herself a splendid sailor and rough weather craft and that she pulled through without serious damage can be in great measure attributed to her fine sea-going qualities.

Officers Elected For L. & A. Committee

At a meeting of the L. & A. Committee last night, the following officers were elected:
Chairman—P. F. Moore, M.H.A.
Vice-Chairman—J. B. Channing.
Secretary—M. J. Savage.
Plans for the coming season were discussed, and with the new committee in charge, an enjoyable programme is looked forward to.

Short Molasses Crop

We hear from the crews of vessels arriving from the West Indies of late that the molasses crop at Barbados and other ports will be short this season and will also be late. This result comes from the fact that a lengthy drought has been experienced there. Generally the first cargoes of new crops reach here early in April but this year they are not expected to arrive before May.

Week's Health Report

During the week 4 cases of diphtheria and 5 of smallpox were reported in the city. Two residences were disinfected and released from quarantine. At present in hospital are 38 diphtheria and 9 smallpox patients, while 4 with diphtheria and 1 with smallpox are being treated at home.

Mr. Calvert Hurt

Mr. Calvert, the cutter at John Maunders' tailoring establishment, has been confined to his home for nearly two weeks past and is being attended by a doctor. Mr. Calvert was hurt during the winter by a severe fall but recovered, though recently he feels the effects of the accident which injured him about the head.

At St. Patrick's

At St. Patrick's Church last night a very large congregation attended. Stations of the Holy Way of the Cross were recited by Rev. Fr. Wilson, after which Rev. Fr. Conway, who will preach a Mission in the parish, delivered an eloquent and impressive discourse on prayer. The church was thronged till 10 o'clock with people performing the usual Lenten devotions.

"KLIM"

Retailers will please take notice that the manufacturers do not permit "KLIM" to be sold except in the original package or tin. The nature of the article is such that it is not suitable to be sold in paper bags.

HARVEY & Company, Ltd.

(Trade Distributors for Newfoundland)

PERSONAL

Yesterday we had the pleasure of an interview with Dr. Thomas Dwyer, son of Richard Dwyer, J.P., Principal of the Holyrood High School and a brother of the Rev. M. Dwyer, P.P., Bonaville. Mr. Dwyer returned to his native land recently after contributing his bit to the cause of King and Empire, and we are glad to be able to state that he has decided to enter upon the practice of his profession in Newfoundland. We anticipate for him a successful career in his chosen profession, and wish him every success.

In May, 1917, Dr. Dwyer joined the Canadian forces, ranking as a senior Medical Officer with the Canadian Branch of C.A.M.C. Transport Service. During virtually his whole period of service he was crossing back and forth from Canadian ports to England and France, and spent much of that period in the submarine area. Needless to say, he did his work faithfully and well. Dr. Dwyer was demobilized in November past, and has since taken a post graduate course at the New York Post Graduate Medical School and Hospital and the New York Lying-in Hospital. He is a graduate of Dalhousie University. In welcoming the young medico back safe and sound, we again wish him abundant success.

Loss of The "Violet Buffett"

A message from Marystown today to the Assistant Collector states the schooner Lief, salt laden, 28 days from Oporto to the Marystown Trading Co., reached Spanish Room Thursday evening having lost all her canvas during the previous night. The Violet Buffett came around Crony Wednesday forenoon, the wind died out and the strong current took her out again and the vessel was dashed to pieces on Eastern Point Mortier, about seven o'clock. The crew after terrible suffering all night, reached L'Anse au Loup.

N. I. W. A.

At last night's meeting of the N. I. W. A., Rev. Dr. Jones and Rev. Gordon Dickie were present as representatives of the Social Service Council, Rev. D. B. Hemmlein being unable to attend through illness. The reverend gentleman pointed out at length the objects of the Council, which it is hoped will be assisted by delegations in its work. It was asked that the N. I. W. A. have ten representatives on the Council, and the proposition met with general approval. The speakers of the evening were accorded a hearty vote of thanks and after discussion of some regular business, the meeting adjourned.

LOCAL ITEMS

It drifted along the railway line in several places last night. A stiff N. W. breeze blew and the temperatures varied from 20 to 30 above.

The Terra Nova-Feldians hockey game set down for last night had to be postponed owing to five of the former team and three of the latter being laid up with heavy colds.

The shipowners and delegation from the Firemen's Union will meet today, when it is expected the rate of wages for stokers at the icefields will be amicably arranged.

A case of diphtheria was reported yesterday from a residence in Queen's Road. The sufferer, a young man, was removed to hospital.

The Ladies' Executive of the G. W. V. A. wish to state that the second meeting of the Women's Association will be held on Tuesday night next, March 2nd, instead of Monday, at 4 o'clock at the Spencer College Hall, Bond Street.

The tug Ingraham, Capt. M. Rose, which went up to Trepassy to tow down the schooner Lila Bonville, is still detained there owing to the gale and heavy sea which has prevailed since Thursday.

The s.s. Kyle arrived at North Sydney at 6 p.m. yesterday and it is expected should get away for here today. If such occurs she should get here early Monday morning and may sail for North Sydney again Monday night.

PILES

Do not suffer another day with Itching, Bleeding, or Protruding Piles. No surgical operation required.

In the sale of the old Empire Barracks, which was destroyed by fire some time ago, Messrs. Dowden and Edwards, the auctioneers, secured excellent prices for the material on Thursday. Mr. Reg Dowden has proven himself to be one of our leading auctioneers.

ABOUT OUR MAIL!

(To the Editor.)
Dear Sir,—Please grant me space in your paper the Advocate, to make a few remarks about our mails. I think it time for someone to wake up and see if we can get our mails more regular, because we could get it as good 30 years ago in January month and February month, when poor old Samuel Budget used to carry it around in a little gunning boat or on his back. I don't know much about a steamer. I got an old trap skiff here with a 3 h.p. Acadia in her and if I got out for it I would have the mail here before this time.

Yours truly,
A SOLID UNION MAN.
Winter House Cove.
(Our correspondent doubtless, has not realized that it is the tie-up on the Railway that must be blamed for the mail service this winter.—Ed.)

REID CO'S SHIPS

Argyle arrived at Placentia 11 a.m. yesterday.
Clyde left St. John's 7.30 a.m. yesterday. No later report.
Glencoe no report since arriving at Burgeo on the 24th.
Home at St. John's.
Kyle at North Sydney.
Meigle due at Louisbourg.
Saguna no report leaving Trepassy, Petrol at St. John's.

POLICE COURT

A resident of Argentea who was before the Court in October last for a breach of the Prohibition Act, was up again this morning charged with a breach of Sec. 202 of the Customs Management Act. At the trial last Fall the case was dismissed, and the liquor which had been taken by Detective Byrne and O'Neill ordered returned. Judge Morris in commenting on this phase of the case this morning said the Prohibition Act gave the police no power to accost a man getting off a train or elsewhere and search his valise unless they had previously obtained a warrant from the Court to do so. The man this morning was charged with having in his possession goods (in this case, wet goods) upon which proper entries had not been passed. Mr. H. A. Winter appeared for the prosecution and Mr. Higgins, K.C. for the defendant. After a long discussion between the lawyers and the Court as to the application of and construction of the several sections of the Customs Act to the facts, and what constituted a seizure under the law, The Court decided that the burden of proof rested upon the defense. Higgins, K.C. refused to submit further evidence, and Mr. Winter moved for a conviction. The defendant was fined \$50.00 or in default 30 days.

Several parties for refusing to pay dog licenses settled up and the cases were stricken from the docket.

A husband had his wife summoned for assault on the 21st inst. This is a case where the incompatibility of temper of the parties to the nuptial contract, makes it necessary that each give the other a "wide berth." This morning the counsel engaged agreed to a separation, the husband agreeing to pay the wife \$200.00 annually, in monthly installments. Under this arrangement the proceedings for assault were withdrawn.

A domestic for safe keeping was discharged to find a place.

The 10th Annual Meeting of the Newfoundland Pharmaceutical Society
The adjourned 10th Annual Meeting of the Nfld. Pharmaceutical Society was held last evening and quite a large number of members were present. The reports of the officers and treasurer showed the Society to be in good condition financially. Several questions covering the druggist's trade in the Island were taken up, and after a very enthusiastic debate, committees were formed to go into the various matters and consider the necessary ways and means to safeguard the druggist's interests.

The election of new officers then took place, and was handled in a very energetic manner by Mr. J. P. Curtin. The old council and officers were re-elected unanimously with the exception of Mr. H. C. Miller, who has resigned. We regret very much Mr. Miller's ill-health which prevents him taking a more active interest in the Society, as he was one of the original founders, and it was largely through his endeavours that the first steps were taken. Mr. A. E. Perkins was elected to take his place. The usual votes of thanks were then tendered, and on motion of adjournment one of the most interesting meetings in the history of the Society was brought to a close.

A Tempting Display

Mr. E. Willis, whose store on the corner of Cochrane and Duckworth Sts. is invariably attractive, is now showing a tempting display of fancy cakes made on the premises by a high-class baker just from the Old Country. Being of good quality and of reasonable price, the articles are disposed of very rapidly.

ADVERTISE IN THE ADVOCATE

Soldiers' Re-Establishment

COMMITTEE HAD BUSY SESSION YESTERDAY.

Hon. J. M. Kent presided over the regular meeting of the Civil Re-Establishment Committee yesterday afternoon, when 54 cases were considered and 43 were granted. The following members were in attendance: Rev. Dr. L. Curtis, Lieut-Col. G. T. Carly, Major W. H. Parsons, M.C.; Major B. Butler, D.S.O., M.C.; Capt. Leo Murphy, Major J. W. March, M.C.; Capt. J. B. O'Reilly, Capt. G. J. Whitty, M.C.; Dr. W. W. Blackall, Vocational Officer, and Capt. G. Byrne, M.C.; Secretary.

Lieut. C. F. Garland attended the session for the purpose of going into further details with regard to his course. His claims were considered sympathetically and reasonably, and a decision arrived at.

The Employment Committee submitted their report, and it was announced that 42 men had secured berths for the forthcoming season. Eleven men were placed in positions during the past week.

The meeting adjourned at 7.30 p.m. to meet again at 5 p.m. to-day to finish up the business of yesterday's session.

Honor For The Salvation Army

The Salvation Army in Newfoundland, hitherto known as a Province, has been raised to the status of a Territory, and the General has just appointed Colonel and Mrs. Martin, direct from the International Headquarters in London, England, to be the first Territorial Leaders.

They have already arrived at Halifax and will be here this week end on the s.s. Kyle.

The introduction of the Colonel will take place in the College Hall, Wednesday evening, at 8 p.m. March 3rd. His Excellency the Governor, Sir Alexander Harris, presiding. Colonel Martin was received in audience before leaving London, by Sir Edgar Bowring and Lord Morris, who expressed their great pleasure of the step being taken.

Metamora Picked Up

There is a report current that the schooner Metamora, abandoned some time ago in mid ocean, the crew being rescued by a passing steamer and landed here Saturday last by the Kyle, has been picked up, and towed into one of the Azores Islands.

Smallpox at Port Rexton

Yesterday Inspector General Hutchings received a message from Sergt. Ryan, of Trinity, stating that smallpox had broken out at Port Rexton, and that nineteen houses were now under quarantine.

Died From Heart Failure

"George Royal, aged 75, was found dead on the Victoria road last night, heart failure." The above information was conveyed in a message to the Inspector General from Sergt Cox, of Carbonear, yesterday.
